

LA60 Linoleic Acid | Overview

Linoleic Acid (LA), its main content are linoleic acid and oleic acid, as well as small amount of palmitic acid, stearic acid and linolenic acid.

HS code: 2916150000, CAS No. :60-33-3

	Indicators	Typical Parameter	Test Method
Appearance	Light yellow Transparaent liquid	Light yellow Transparaent liquid	Visual Inspection
Color, Fe-Co method, #	≤3	1+	GB/T 1722
Acid Value, mgKOH/g	195-205	201	GB/T 9104
Iodine Value, gl/100g	≥130	140	GB/T 5532
Linoleic Acid Content, %	60-70	64	GC
Frozen Point, °C, ≤	18	16	SN/T 0801.17

Features

High Linoleic Acid Content, high reactivity
Light Color
Good anti-yellowing, gloss retention and weather resistance for finished products

Usages

1. For light-color, weather-resistant printing inks and coatings
2. For pharmaceutical products

Packaging, Transport and Storage

1. Packages: IBC tank, plastic drum, ISO tanks or flex tanks.
2. Not hazardous, flammable, keep away from ignition sources.
3. Effective storage period of one year.
